25	2 SS military goods, 88 tons	"	Wolmirstedt

1. **Comment.** This is the first report from the Halle RBD after an interval of about half a year. It does not allow conclusions as to the actual volume of military supply shipments handled at the railroad station. Compared with reports of 1953, the present report covers more than 50 percent of the shipments. On the basis of this comparison, the entire military supply traffic in the RBD Halle is considered normal. 25X1
